

POSITIVELY PETS PUPPY AND PET DOG TRAINING

As seen on TV's "It's a Dog's Life."

Positive, reward-based, pet dog training since 1993. Our hallmark is a consistent policy of using the most up to date, kind and effective training methods.

Practical. Subjects taught are priorities for most owners - coming when called, walking well on lead and general good manners. Complete for park and home.

Enthusiasm. Reward based methods and clicker training so your dog learns to co-operate because he wants to.

Taking time to ensure owners and dogs learn thoroughly and with a minimum of stress. Taking time to answer your questions.

Starting together. New starters all begin at the same time so nobody misses the basics or feels left behind.

Maximum and minimum numbers in class are guaranteed. Each dog gets enough attention while still training against the important distraction of, and socialisation with, other dogs.

We welcome single people, retired people, children, small dogs and big dogs and all dogs! Please contact if you'd like information about disabled facilities at our venues.

Class assistants can answer questions one-to-one and give additional support to students.

Written sheets help with practice and learning out of class time.

Instructors have recognised training qualifications.

We encourage visitors and are very keen for you to *'look before you book'*.

Puppy Class

- First steps in socialisation and training for young puppies under 18 weeks.
- Free play between pups to help socialise and control among other dogs.
- Meeting and greeting all the people in class to learn manners and confidence.

Companion Dog Class

- Teaching practical skills to dogs and puppies over 18 weeks.

Behaviour Problems in Companion Class

Older pups and dogs who aren't 100% friendly with people or other dogs can be made worse by dog class and it's important all dogs and owners feel safe together. So, contact us for the right advice for frightened or aggressive dogs.

Comments of Past Students

"I found it rewarding and reassuring."

(Puppy Class Student)

"An excellent course - a much more useful (for owners) and easy way of learning (for dogs) than other courses I've been on."

(Companion Class Student)
